Skills

Programming[proficient]: Java, JavaScript, JSP, EasyUI [familiar]: Vue, Angular, BootStrap, JQuery, HTML, CSS.
Database: MySQL, SQL Server, Oracle.
Frameworks & Tools: Spring Frameworks, Hibernate, MyBatis, Maven, Redis, ElaticSearch, Kafka, RocketMQ.
Version Control & Testing: Git, SVN, Cucumber, TDD & BDD.
Other: Azure, AWS, Jira, Sprint & Scrum, Docker, Kubernetes, Zookeeper, Nginx, Linux, Jenkins.

Employment & Projects

Infosys Ltd.   **Guangzhou, China**
Technical Analyst   *May 2022 - Present*
○ **HSBC's PayMe**
  * **Summary: Developed Java mobile user interfaces and Angular merchant web services for HSBC's PayMe project, enhancing the experience of over 3 million users.**
  - Developed HSBC credit card fee feature for PayMe, **saving $300,000 monthly in top-up fees** and influencing user behavior towards preferred payment methods;
  - Implemented PayMe's auto-trigger feature, **slashing customer complaints by 76%** and enabling next-day voucher fulfillment, significantly boosting daily P2M transactions;
  - Streamlined web system setup with Angular, replaced monthly SQL tasks, **boosting efficiency by 80%**;
  - Boosted data sync efficiency, reducing process time from 2 hours to 10 minutes, **a nearly 90% improvement**;
  - Executed a total service migration from Azure to AWS, ensuring uninterrupted business continuity.
    <u>Utilized</u>: Spring, MyBatis, Angular, Redis, Kafka, SQL Server, MySQL, Azure, AWS, Jenkins.

WeiNing Health Co., Ltd.   **Guangzhou, China**
Senior Software Engineer   *Oct 2021 - Apr 2022*
○ **WeiNing Healthcare Information System**
  * **Summary: Developed a Hospital Management platform using Java and Vue, enhancing hospital processes and system integration.**
  - Implemented message queue and sent SMS or email to nurse station using Kafka asynchronously;
  - Improved concurrency efficiency and realized database synchronization by ElasticSearch;
  - Optimized SQL script and used Redis middleware cache to **improve the loading speed of print preview by 50%**;
  - Setup a reliable distributed configuration center with Apollo in a week to accelerate the deployment speed.
    <u>Utilized</u>: Spring, MyBatis, BootStrap, ElasticSearch, Redis, RabbitMQ, SQL Server.

YaMei Information Technology Co., Ltd.   **Guangzhou, China**
Software Engineer   *Apr 2019 - Apr 2021*
○ **YAMEI Human Resource Management System**
  * **Summary: Developed the Office Automation system which optimizes and automates business processes and procedures with Java independently.**
  - Connected with third-party open platforms to streamline core processes and **improve work efficiency by 70%**;
  - Imported OpenOffice to convert Excel or Doc files into PDF and realize online preview securely;
  - Implemented unique drag-and-drop framework, **reducing GUI development time by 85%**;
    <u>Utilized</u>: Spring, MyBatis, Vue, Redis, MySQL, OpenOffice, SVN, Jira.

GuangDianYinTong Technology Co., Ltd.   **Guangzhou, China**
Java Development Engineer   *Jul 2016 - Jun 2018*
○ **YinTONG Office Automation Collaboration System**
  * **Summary: Developed HR and Mobile Approval system for streamlined human resource management.**
  - Used JBPM as a fast workflow engine to enhance process approval efficiency and **cut labor costs by 35%**;
  - Implemented single-sign-on protocol (CAS) in the system to provide access control across multiple applications;
  - Visualized official data with different charts using the Echart tool to increase HR productivity.
    <u>Utilized</u>: Spring, Hibernate, EasyUI, JQuery, Apache Shiro, JBPM, Echarts.

Education

Tianhe College of Guangdong Polytechnical Normal University   **Guangzhou, China**
Bachelor of Computer Science Engineering   *Sep 2012 - Jul 2016*
